CAREER OBJECTIVE

As an undergraduate Computer Science student, I am eager to contribute by applying data analysis and machine learning techniques to extract insights, optimize processes, and support data-driven decision-making. If I join your team, I will focus on analyzing complex datasets, building intelligent solutions, and translating findings into actionable outcomes. Alongside this, I bring strong UI/UX design skills that allow me to transform insights into intuitive, user-friendly interfaces. My goal is to deliver innovative solutions that not only leverage data but also create seamless user experiences, helping the company achieve measurable impact and growth.
